Daniel:

Can you send me the email chain where HQ would have sent you an email with "HQ_Final_SedimentIntake_081015_081215_081315.xlsx".

Thanks

Terry

Looping in EOC PIO and David Gray.

What I know:

EOC Sent us a file at 2:35pm ET yesterday:
"HQ_Final_SedimentIntake_081015_081215_081315.xlsx"

At 2:40 ET EOC sent a follow up to hold on posting that file

At 10:38 AM ET today EOC PIO sent us
"hq_report_081015_081215_081315_final_sedimentintake.xlsx" to post

and 12-13th
Importance: High

The file that Matt sent you was not the file that was posted on the .gov page

This is why we the data team asked the Web Team to provide us with the exact tables that were posted on the .gov site.

If tables are posted that are different than what we provide that makes it difficult for us to ensure that we are updating the public viewer with the correct data sets.

Someone outside the region sorted the data and saved it using a new filename before it was posted online.

Subject: Fw: Region 6 Animas/San Juan River Water Intake Sediment Data for August 10th
and 12-13th

Hi Eric:

On your email:

Is the EOC manipulating (i.e. Sorting/formatting) the reports we send you?

I think some one is because the sediment data for 08/10,12,15/15 was named "HQ_Final_SedimentIntake_081015_081215_081315.xlsx" and the data that was posted is "hq_report_081015_081215_081315_final_sedimentintake.xlsx"

The above attached file is exactly how we received it from Matthew. We did not change the file name:

Subject: Region 6 Animas/San Juan River Water Intake Sediment Data for August 10th and 12-13th

Please find attached the data table and "message" for Region 6's sediment sampling from Water Intakes on the Animas and San Juan Rivers on August 10th, 12-13th. Please review as early as possible, as we need this data posted by noon Mountain time as our staff will be

participating in a Community meeting in Farmington and would like to present this data. Thank you and please contact me with any questions.

Matt Loesel
